

## Monthly Spotlight

Have you visited the Farmer's Market under the new pavilion? This allows shoppers to come rain or shine on Wednesday afternoons and Saturday mornings, giving protection to the buyers, sellers and products. On Wednesdays, as long as space permits, it even offers some covered parking for customers. The Market accepts debit, credit and SNAP/EBT cards. You can run your card at the market booth and receive tokens to spend at any booth. They are a producer only market, with the vendors growing or making everything they sell. That being said, they are always looking for new vendors, especially those that grow produce. The Market hours are Wednesday 2-6:00 p.m. and Saturdays from 8:00 a.m. – 1:00 p.m. The market is held no matter what the weather forecast throws at them. Farmer's Markets are a big part of every community, and we love supporting our local farmers and producers. Come out and show your support!
